

# Specifications

- **Wireless Interface :** Complies with Bluetooth Core Specification V1.1 2.4 GHz~2.4835GHz license-free ISM Band
- **Compatible Bluetooth Mobile Phone :** Nokia 3650 / 6310i / Ericsson P800 / T39m / T61d / T68 / T68i / T68m / LG VX9000
- **Bluetooth Profiles:** Headset Profile
- **Power for Radiation Frequency:** 4 dBm MAX. (Class 2)
- **Receiving Sensitivity:** <70 dBm
- **Operation Temperature:** 0°C to 60°C
- **Storage Temperature:** -20°C to 75°C
- **Operation Voltage:** 1.5V (Typical)
- **Operation Current:** 130mA (Typical current in talking mode)
- **Range (open environment) :** 10m
- **Communication Time :** 4 hours
- **Standby Time :** 100 hours
- **Weight :** 39g (excluding battery)

# Introduction

IVT Bluetooth Headset not only provides compatibility to existing Bluetooth mobile phones but also provides interoperability with Bluetooth-enabled devices like desktop, laptop, PDA and Voice/Data gateways which support Headset Profile.

The unique design of the function keys and LED indicators make the headset comfortable and very easy to use.

All the incoming call to the Bluetooth mobile phone will be transferred to headset. Furthermore, empowered by IVT Audio Gateway products including Bluetooth ADSL Voice/Data AP, Bluetooth PSTN Voice AP, Bluetooth PSTN/ISDN Voice/Data AP and BT Ethernet/PSTN 2-in-1 AP, the headset can also be used as handset of cordless phone.
